

Steelbond

Some of the Steelbond range has now been taken over by the Amercoat range, below are the Steelbond products and corresponding new Amercoat name.

Steelbond 2704 - Amercoat 217

Waterborne maintenance coating for tank roofs, shell externals, general plant and steelwork, street furniture and lighting columns.

Steelbond 2706 - Amercoat 220G

Durable water borne finish for tank roofs and shell externals, general plant and steelwork, street furniture and lighting columns. Suitable for application in storage areas, schools, hospitals, laboratories and other internal areas where the use of solvent based coatings is restricted for health, safety and/or environmental reasons.

Steelbond 2136 - Amercoat 2136

Amercoat 2136 is a high build, micaceous iron oxide pigmented coating designed to protect both steel and galvanized steel structures including tank roofs/shell externals, fences, galvanized ducts/cladding, street furniture and lighting columns. Amercoat 2136 is a single pack vinyl MIO coating providing excellent protection to steel structures. To obtain the maximum performance for which Amercoat 2136 is formulated, strict adherence to all application instructions, precautions, conditions and limitations is necessary.

Steelbond 2143 is now Amercoat 2143

Amercoat 2143 is a high build decorative protective coating designed to protect both steel and galvanized steel structures including tank roofs/shell externals, fences, galvanized ducts/cladding, street furniture and lighting columns.

Steelbond 4117 is now Amercoat 4117

Works applied single coat protective finish for general structural steelwork in dry internal environments.

Steelbond 2198 is now Amercoat 4189

Anti-corrosive primer for the maintenance painting of general structural steelwork, tank roofs and shell externals, pipework, bridges, cranes and other general paint.

Steelbond 1620 is now Amercoat 4190

Amercoat 4190 is a penetrating primer specifically for use in conjunction with Amercoat 4191 for the coating of interior of bridge box sections, ship tanks, lighting columns, voids and other difficult access areas.

Steelbond 2610 is now Amercoat 4191

Surface tolerant maintenance coating for use in both industrial and marine environments. Provides anti-corrosion protection for the interior of bridge box sections, ship tanks, lighting columns, voids and other difficult access areas where blast is impractical.

Steelbond 2310 is now Amercoat 4310

Durable finish for general steelwork operating in a wide range of industrial and marine conditions. Amercoat 4310 is also suitable as a topcoat for Steelguard FM intumescent coatings.

Steelbond 1350 is now Amercoat 4350

High opacity undercoat for general structural steel to be overcoated with suitable alkyd based topcoats.

Steelbond 1613 is now Amercoat 4613

High build intermediate/finish for general structural steel which can be overcoated with suitable alkyd based topcoats.
